8th Finance and Sustainability European Research Award

Call for papers

London & Paris, April 18, 2013 – Submission for the 8th Finance and Sustainability European Research Award is open. Candidates (students and researchers) can apply online: www.fir-pri-awards.org

In 2005, FIR-PRI Award was launched to foster academic research on subjects in Finance and Sustainability. By building bridges between the academic and finance communities and their stakeholders, FIR-PRI Award aimed to promote practically relevant academic research and encourages broader disciplinary development of responsible investment scholarship.

Starting in 2011, FIR partners with PRI to advance a joint programme to meet these goals. Aspects of this partnership are the development of an international resource database and coordination between the annual PRI Academic Conference and FIR Award Presentation. Eligible applicants are able to submit one application to be considered for both the FIR Award and the PRI Academic Conference in Paris November 13-15, 2013.

2013 edition

Target. The award accepts submissions from students or researchers who either: hold a European passport, have an affiliation to a European university or graduate school, are collaborating with a faculty member who is affiliated to a European research institution, have Europe as a research field

Timeline. Submission deadline is July 15 2013. The Jury will meet mid-September for preselection and mid-October for its final choice. The Award ceremony will take place in Paris on September 26.

Categories & Rewards. Three awards valued at €5,000.00: Best Master's Thesis award, Best PhD Thesis award, Best published Academic Article and a PhD research grants valued at €10,000.00.

About PRI: The Principles for Responsible Investment Initiative (PRI) is a network of international investors working together to put the six Principles for Responsible Investment into practice. The Principles were devised by the investment community. They reflect the view that environmental, social and corporate governance (ESG) issues can affect the performance of investment portfolios and therefore must be given appropriate consideration by investors if they are to fulfil their fiduciary (or equivalent) duty. Launched in 2006 by UNEP Finance Initiative and the UN Global Compact, the Principles provide a voluntary framework by which all investors can incorporate ESG issues into their decision-making and ownership practices and so better align their objectives with those of society at large.
